

ANURAG KHONDE

Java Developer

Phone: +91-9970601147 | Email: anuragkhonde6@gmail.com | LinkedIn: LinkedIn | GitHub: GitHub

ABOUT

Software Engineer with professional experience in backend application development, with hands-on expertise in Java, Spring Boot, Spring Security, JPA/Hibernate, REST APIs, and PostgreSQL through backend projects and development experience. Interested in building scalable, secure, and maintainable backend systems.

EDUCATION

Pune Institute of Computer Technology — Bachelor of Engineering (2022 - 2026)

Pune, Maharashtra

Model Jr College of Science — Higher Secondary Certificate (2022)

Arvi, Maharashtra

Krishak English Vidyalaya — Secondary School Certificate (2020)

Arvi, Maharashtra

PROFESSIONAL EXPERIENCE

Associate Software Engineer (Simplify Healthcare) JUL 2026 – CURRENT

Intern Software Engineer (Simplify Healthcare) JAN 2026 – JUN 2026

- Worked on **Nova**, migrating multiple healthcare insurance applications into a unified platform.
- Resolved application **bugs** across multiple modules and delivered development tasks and user stories within **Agile/Scrum** sprints.
- Worked with **PostgreSQL** for database operations, including queries and stored procedures supporting application functionality.
- Collaborated with **QA and UI** teams to integrate, validate, and test features end-to-end.
- Used **observability and application monitoring** to troubleshoot issues and validate application behavior.

INTERNSHIP

Web Development Intern, UptoSkills JAN 2025 – APR 2025

- Developed and integrated RESTful APIs using **Spring Boot** and worked on backend feature implementation and service-layer logic.
- Worked with **Spring Data JPA and MySQL** for database operations, entity mapping, and data persistence.
- Contributed to frontend development using **HTML, Bootstrap, JavaScript, and basic React.js** for responsive UIs.

PERSONAL PROJECTS

Star Blog Blogspot | Spring Boot, Spring Data JPA, Spring Security, Spring MVC, Thymeleaf

- Developed a secure Spring Boot blogging platform with **user authentication** for content creation and comments.
- Implemented **role-based access control (RBAC)** with Spring Security, defining distinct privileges for 'Author' and 'User' roles.
- Reduced backend query times by **25%** by optimizing with Hibernate and using Thymeleaf for **server-side rendering**.
- Deployed the application on **Live domain with Render** and the database on **TiDB cloud**.

TECHNICAL SKILLS

- **Programming Languages:** Java(Core, Java8+), C#, JavaScript, SQL, HTML, CSS.
- **Frameworks & Libraries:** Spring Boot, .NET, Spring MVC, Spring Security, JPA, Spring Data JPA, Apache Kafka, Thymeleaf, SpringAI.
- **Databases:** MySQL, PostgreSQL
- **Developer Tools:** Git, GitHub, VS Code, IntelliJ, Visual Studio, Postman, Unleash
- **Cloud Technologies:** Microsoft Azure, GCP.
- **Core Subjects:** DBMS, OOP, DSA, OS, Microservices Architecture, Distributed systems.
